

## EMPLOYMENT OPPORTUNITY

### **AIR QUALITY INSTRUMENT SPECIALIST I/II** **\$5,172.70- \$7,283.93/mo.**

**THE POSITION:** We are excited you are considering the San Joaquin Valley Air Pollution Control District as a place for employment! Our agency is in the heart of the San Joaquin Valley and our mission is to improve the health and quality of life for all Valley residents through efficient, effective and entrepreneurial air quality management strategies. We pride our agency on not only high-quality technical work, but also exceptional customer service. Our customers include the public, the regulated community, other agencies, and fellow employees. The principles of our STAR (Service, Teamwork, Attitude and Respect) culture creates an atmosphere in which providing exceptional service, demonstrating effective teamwork, maintaining a positive attitude, and showing respect to others is a key part of every employee's job.

The Air Quality Instrument Specialist performs professional level air quality monitoring work, specifically focused on the review, planning, and design of new air monitoring technology and automation processes, as well as making recommendations and implementing their deployment. This position requires a strong background in a scientific discipline, and preferably with experience in operating and maintaining a variety of high precision equipment. The position also requires skills in long term planning, high level of independence, effective troubleshooting, robust data analysis abilities, and strong technical writing skills. In addition, the position will also require involvement with the routine maintenance and repair of the air monitoring network and assisting the program in other areas where needed. The eligible list established as a result of this recruitment may also be used to fill a temporary Air Quality Instrument Technician vacancy.

#### **Qualifications:**

**I Level:** Qualifications for the AQ Instrument Specialist Requires education equivalent to a Bachelor's Degree from a four year college or university with major coursework in a scientific discipline such as engineering, physics, chemistry, mathematics, or a closely related field. Experience in providing technical support in an air quality, environmental or related field may be substituted for the education on a year for year basis to a maximum of two years.

For information on Air Quality Instrument Technician requirements, please visit our [website](#).

#### **Other Requirements:**

Must possess a valid California Driver License and meet the automobile insurability requirements of the District. Must possess the physical strength and agility to climb ladders, carry equipment and work at heights or up to thirty feet. Must be able to attend work on a daily basis as scheduled.

#### **Selection Process:**

**Interested individuals must submit an SJVAPCD application form online.** Applications and materials must be submitted on our website at [www.valleyair.org](http://www.valleyair.org) by **5:30 p.m. on Tuesday, November 24, 2020.** Resumes are not accepted in lieu of an official application.

All applications will be reviewed and those candidates who are considered more qualified will be invited to participate in a practical exam pass/fail followed by an oral exam, weighted at 100% for those who pass the practical.

San Joaquin Valley Air Pollution District participates in the E-Verify Program. For more information visit <http://www.valleyair.org/jobs/E-Verify/E-Verify.pdf>
