

Chain-of-Custody Procedures for Samples and Data

Revised Course – Now Online!

Do you handle environmental samples or data that could become evidence in a court case?

In this 50-minute, self-instructional, online training, learn how to:

- Ensure the integrity of samples and data
- Document the possession and location of samples and data from collection through reporting of results
- Ensure your sampling data will stand as evidence in legal proceedings

Who is it for?

Environmental professionals who are responsible for the collection, transfer, analysis, storage, and disposal of samples and data, and others who need to preserve chain of custody for environmental samples and data.

Where is it offered?

<http://www.epa.gov/apti/coc>

When is it offered?

Anytime, anywhere, at your convenience.

What else do you need to know?

No registration or fee required. Certificates awarded upon successful course completion.

The logo for the Agency for Protection of Technology and Information (APTI) is located in the bottom right corner. It features the letters "APTI" in a stylized font with a blue and green wave graphic.
