Our Regional Haze Site

WELCOME

Welcome to the web site of Metro 4, Inc. and Southeastern States Air Resource Managers, Inc., non-profit corporations formed respectively by the local and state air pollution control agencies located in the southeastern states of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. While this web site is designed primarily to serve the needs of the member agencies of Metro 4 and SESARM, we offer the information on our site for general public use as well.

Metro 4 and SESARM exist to support and supplement the work of our agencies. Air quality is an important health and environmental issue in the Southeast. Our agencies, with support from their citizens and business communities, commit significant resources to address air quality problems within their jurisdictions and in our region. Air quality is generally improving in the Southeast but environmental management involves not only improvement from unhealthy levels but maintenance of acceptable levels.

Please contact our member agencies or this office if we can be of assistance. And remember to "Do Your Share for Clean Air."
